
TURN ON MACROS FOR EXCEL!!!!

- It's always recommended that you hit *BOTH RESET BUTTONS (TELEOPERATION FIRST, THEN HYBRID)* ~~*RESET HYBRID*~~ before starting a "match."
- When you're done playing with Hybrid Period, click on END HYBRID to start Teleoperations.
- DO NOT JUST CLICK THE "Teleoperated" RADIO BUTTON, as this will not save the hybrid score to add to the final!!!
- The rows of 3 Blue/Red boxes represent the ROBOTS. The BLUE FINISH LINE would be at the top of the screen, the RED FINISH LINE is at the bottom of the screen.
- *During HYBRID PLAY,* all ROBOT counters must be scored in CCW order as according to the FRC manual, otherwise an ERROR will occur.
- *During TELEOPERATION, only the FINISH LINE counters will be active. <G06>*
- The OVER/UNDER boxes represent the ball passing an OVERPASS. It is to my understanding of the rules that RED balls only count when crossing the RED FINISH LINE. <G10>, <G11>.
- The CHECKBOXES in the center represent balls ON TOP of an over pass. These are defaulted to ON at the start of HYBRID MODE, and defaulted to OFF at the start of TELEOPERATIONS MODE.
- The WORKING HYBRID box shows the score while in HYBRID MODE. This score is NOT added to the FINAL calculation until the END HYBRID button is pressed.
- PENALTY values are the only thing that needs to be typed in manually.

Italicized text has been added/altered as of v1.2.
